Mission of the Longevity Bench Project

Our mission is to add a bench every half mile along popular walking loops throughout the Town of Manchester-by-the-Sea, MA. Longevity Benches are placed on property in residential neighborhoods enabling people of diverse abilities to take a walk, knowing there will be a place to rest along the way. Each bench is a gift to the entire town, donated by individuals, groups of family and friends, clubs and businesses – with community support from thoughtful, caring and inclusive-minded people.

Longevity and quality of life is enhanced through physically and socially active, healthy and happy lives - while enjoying nature's beauty outdoors.

The Project was launched on May 10, 2018 and the placement of benches every half mile will achieve the initial mission of this 501(c)(3) nonprofit.

Donations Welcome - 100% Tax Deductible

Contact us or visit our website to learn how you can become a property sponsor or a bench donor. To make a monetary donation online, click the blue "Donation" button at the top of our website, LongevityBenchProject.org or send a check in any amount to:

Project Founder, Lisa Bonneville

As a nationally certified interior designer, Lisa specializes in spatial planning to create accessible, multigenerational living spaces-indoors and outdoors. This naturally extends into the neighborhood and community to maintain good health, social interaction and a sense of well being. It is this VISION and the desire to create a more walkable town that inspired the Longevity Bench Project.

"With gratitude to this generous community"
